Zirconia C&B Fitment Checking Model

Printed Model

C&B Fitment Checking

Product used: Model Hard Resin

About The case

The lab wanted to test the fitment of the milled zirconia crowns before delivering it to the doctor, so they decided to print the Fitment Model and check the fitting of the Single Unit Zirconia crown.

Outcome & Lab's Comment

The fitment model was printed with D Tech Model Hard Resin which is specially designed for printing Hollow Models. The model printed perfectly without any shrinkage or fitting Issues and the milled single unit C&B provided the accurate fit on model without any adjustment.

About the Lab

Digimax dental lab founded by Dr Gk gupta in 2018, having presence in North Delhi. The lab is equipped with latest technology and certified technicians. Lab specialises in implant with peek base (monolith) and high end prosthetics works, CAD/CAM and milling.
