3D Printing Of Stackable Guide

Printed Guide

Cured Guide

Post Autoclaving

Product used : Surgical Guide

About The case

The case was a complex case of placing 6 implants along with 5 anchor pins. Dr had designed stackable guides with 6 drilling sleeves and 5 anchor pins.

Outcome & Doctor's Comment

The guide was designed using Digital Dental Software and then printed using D tech Accuprint SG Resin on Phrozen Sonic Mini 4k with Ferguson mini plate. "Doctor was completely satisfied with the printed guide which provided great results with perfect fit of stackables and sleeves. The guide was translucent after autoclaving"

About the Doctor

Dr Nitish Surathu completed his BDS in 1991 and an MDS in Periodontics in 1994. He is, by examination, an accredited Associate Fellow of the American Academy of Implant Dentistry and is also a Fellow and Diplomate of the International Congress of Oral Implantologists. They have their own dental clinic in New Zealand named as Amber Dental.
