

Aligning of Teeth with Iridium Master

Pre-Treatment

Mid-Treatment

Post-Treatment

Product used : Iridium Master

About The case

Patient Name : Shreya

Age/Gender : 18/M

Diagnosis : Angles Class II Div. I Malocclusion

Treatment Plan : Fixed functional & forsus fatigue hybrid fixed functional appliance by damon.

The patient had narrow shaped maxillary arch with moderate to severe crowding and retruded mandible.

Outcome & Doctor's Comment

D Tech Iridium Master Bracket was used and the case was treated as non extraction with fix functional appllice power scope 2 appliance.

"Brackets have a good shear bonding strength and easy to use. Brackets showed good amount dento alveolar expansion and powerscope 2 is used for mandibular advancement."
